CHILD CARE & PRESCHOOL
(Available at Glen Cove, Bay Shore, Huntington, and Patchogue branches)

Our YMCA programs provide a safe, nurturing environment for children to learn, grow, and develop. Our comprehensive curriculum is designed for discovery, choice, and problem-solving. The development of trust, independence, and initiative is fostered through a daily program that includes art, science, music, fitness, outdoor play, free-choice and circle time. Self-esteem, independence, social/emotional and cognitive growth are fostered through a balanced, developmentally-based program. At the Y, we value each child’s unique personality and temperament. We value taking the time to answer their questions, helping a child complete a puzzle, read a lengthy story or talk through a social issue. A full Y National Swim Instruction Program is included in the classes for our 3 and 4 year-olds. Plus, 4 year-olds enjoy enhanced reading and math readiness to help them prepare for Kindergarten. Please check your local branch for class offerings, availability, and fees.

Every activity mixes fun with high-quality instruction that is tailored to each child’s individual needs and developmental level.

PRE-TEEN CAMP (Entering Grades 5–7)
TEEN CAMP (Entering Grades 8–10)
Our Pre-Teen and Teen Campers take pride in having their own identity within camp. The Y provides the perfect environment for campers to make new friends, explore the world around them, and develop decision-making and character-building skills. Campers enjoy multiple field trips throughout the summer and participate in traditional day camp fun such as sports, crafts, swimming, and team exercises. Our Pre-Teens and Teens are also enabled to choose from various Camper’s Choice activities, so that they can explore potential interests and build proficiency in favorite areas.

LEADERSHIP OPPORTUNITIES

CIT (COUNSELOR-IN-TRAINING) (Entering Grades 10–11)
Our Counselor-in-Training program combines the fun of camp with leadership and on-the-job training. The CIT program is a unique opportunity for motivated young adults to develop the necessary skills to be role models for children. CITs spend part of their day enjoying a range of activities and part of their day learning about responsibility and professionalism by assisting counselors with camper activities. They also learn interviewing skills, CPR/First Aid, and guidance on how to navigate difficult social challenges of young adulthood.
PERFORMING ARTS CAMP AIT (Artist-in-Training)
Entering Grades 10-11 (Huntington and East Hampton)
Entering Grades 11-12 (Great South Bay YMCA)
(Y Boulton Center Act Out Theatre Program)
The Performing Arts Camp Artist-in-Training (AIT) program allows campers to develop the important artistic skills needed for future education and professional development. AIT’s have the opportunity to complete a guided study in the arts, audition pieces, and leave camp with tangible practice skills. AIT’s can perform in productions with their age group as well as assist on all aspects of the show. They work in a leadership capacity along with the counselors, assisting campers and training to be a Performing Arts Counselor.

SPECIALTY CAMPS
SPORTS CAMP
(Entering Grades 1-9. Groups organized by grade level.)
Sports Camp is perfect for the "athletically enthusiastic" child. Our experienced Specialists gear instruction to all levels and abilities. The program focuses on keeping campers active, honing their skills, as well as playing a variety of sports and games in a fun and safe environment. Throughout the program, teamwork and sportsmanship are fostered and hand-eye coordination and motor skills are developed. Sports include basketball, soccer, football, volleyball, T-ball, hockey and more! Campers also enjoy other camp activities and traditions throughout the summer. *Sports vary by branch. Check rate card for applicable offsite locations.
**Patchogue-Brookhaven Roe offers Basketball Camp.

CODING
Entering Grades 2-6 (Huntington)
In our increasingly tech-driven world, knowing how to code is an invaluable skill. But kids who code don’t really look at it that way – they think it’s just a lot of fun to design video games, create websites, and make robots move. Campers use computers and project-based coding to learn programming. Campers develop the fundamental computer science logic needed to break down complex problems. Learning to code empowers kids to develop a growth mindset and become independent problem solvers. This program is self-paced, allowing campers to progress through the curriculum at their own speed. Campers at all levels can participate – from beginners to the more advanced.

PERFORMING ARTS CAMP
Entering Grades 1-11 (Huntington and East Hampton)
Performing Arts Camp provides the opportunity for campers to perform in musical theater performances. Campers work with professional directors, choreographers and artists to create a live show within a few weeks. Along with working on a production, campers take classes in acting, voice, art, dance, and set design. Campers also participate in outdoor fun, crafts, and more.

Y BOULTON CENTER ACT OUT THEATRE SUMMER PRODUCTIONS
The Y Act Out Theatre Summer Productions program offers a wide array of performing arts disciplines including, dance, acting, and musical theater. We provide our students in grades 1-11 quality arts instruction including theater, dance, voice and tech instruction in a nurturing and inspiring environment. Whether your child is just starting out or is an experienced performer, we help your child discover and express themselves creatively. Students work with professional directors, choreographers and artists to create a live Broadway-style show during the summer. Local trip for younger students and NYC-Broadway Show trip planned for older students each session. Program held at Bay Shore Middle School and YMCA Boulton Center for the Performing Arts. Visit BoultonCenter.org for more information.

SUMMER LEARNING IS FUN!
PSEG STEM DISCOVERY LAB
Our YMCA Summer Day Camp supports science, technology, engineering, arts, and math. Thanks to the support of PSEG Long Island and PSEG Foundation, our campers are engaged in daily activities that nurture their curiosity, inspire creativity, and teach them how to succeed. Campers learn how to solve problems, develop critical thinking skills, and learn to work successfully in teams.

IMAGINATION STATION
Imagination Station is an integral component of the YMCA Summer Day Camp and helps children prevent “summer slide,” the phenomena where students tend to fall back in reading and comprehension during out-of-school time. Every week, children engage in interactive activities including games, drama, and art to review and build upon specific literacy skills. Thanks to the support of the Rauch Foundation, the YMCA provides certified specialists who use an interactive and engaging curriculum created by our Literacy Cabinet team for the camp season. Campers age 3 through grade 3 participate.

INCLUSION PROGRAM
Every child should have the opportunity at camp to learn, to feel supported, enabled and inspired to do their personal best. We offer an inclusive camp program for children with disabilities. Thanks to the support of the LIAM Foundation, an Inclusion Specialist is provided, at no cost, for children who need extra support and guidance.
*At Great South Bay YMCA only. To be a candidate, applications must be submitted by April 30th. Subject to availability.

HOLIDAY CAMP
The YMCA of Long Island provides Holiday Camp, when the local school districts are closed for Thanksgiving break, Winter Recess, Mid-Winter Recess and Spring Recess. Our Holiday Camp program provides your child a safe and fun environment to make new memories, stay active, gain new friends, and participate in a variety of fun and educational activities over holiday breaks. Activities include sports and games, special theme activities, STEM, arts & crafts, swimming and more! Age ranges for Holiday Camp are Pre-K/Kindergarten through fifth/sixth grade. Please check your local branch for specific dates, offerings, and availability.

STAGE DESCRIPTIONS:

A / Water Discovery Introduces infants and toddlers to the aquatic environment.
B / Water Exploration Focuses on exploring body positions, blowing bubbles, and fundamental safety and aquatic skills.

SWIM BASICS FOR PRESCHOOL, SCHOOL AGE, TEEN, AND ADULT

Students learn personal water safety and achieve basic swimming competency by learning two benchmark skills: swim, float, swim—sequencing front glide, roll, back float, roll, front glide, and exit—and jump, push, turn, grab.

In Water Acclimation, Water Movement, and Water Stamina, students are taught the recommended skills for all to have around water including safe water habits, underwater exploration, and how to swim to safety and exit in the event of falling into a body of water. Activities, games, and drills, geared to reinforce learning, are utilized heavily as students progress in this skill-based approach to swimming.

STAGE DESCRIPTIONS:
